

Kushagra Chhabra

Full Stack Developer — Backend Engineer — MERN Stack

+91 9468436924 — kushagra369chhabra@gmail.com — LinkedIn — GitHub — Portfolio — LeetCode

Summary

Full Stack Developer specializing in MERN stack with strong expertise in backend engineering, scalable system design, and API development. Experienced in building high-performance web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in authentication systems (JWT, RBAC), caching (Redis), cloud storage (AWS S3), and performance optimization. Focused on writing clean, production-grade, and scalable code.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **DevOps & Tools:** Git, GitHub, Postman, Docker, Redis, AWS S3, Vercel, Render
- **Core Concepts:** REST APIs, Authentication (JWT, RBAC), API Security, Rate Limiting, Caching, System Design, Scalable Architecture

Projects

AuraLink — Real-Time Messaging Platform

Live — GitHub

- Built real-time chat system using Socket.IO supporting concurrent users with low latency (<100ms)
- Designed RESTful APIs improving response time by 30% and reducing server load
- Implemented JWT authentication, rate limiting, and secure API architecture

Globex — Travel Booking Platform

Live — GitHub

- Developed full-stack booking system handling user authentication and dynamic reservations
- Integrated AI chatbot increasing user engagement by 25%
- Optimized MongoDB queries reducing latency by 20%

FoodKing — Food Ordering Platform

Live — GitHub

- Built scalable order management system with secure authentication workflows
- Developed admin dashboard improving operational efficiency
- Optimized database schema reducing query execution time by 15%

Experience

MERN Stack Developer Intern — Hartron Pvt. Ltd

Jan 2025 – Feb 2025

- Developed task management system improving load time by 30%
- Built REST APIs handling 200+ daily requests with stable performance
- Optimized database queries reducing response time by 20%

MERN Stack Developer Intern — SQILKO

Jul 2025 – Sep 2025

- Implemented JWT + RBAC authentication for multi-user systems
- Improved frontend-backend communication efficiency by 25%

- Enhanced scalability through efficient state management and API structuring

MERN Stack Trainee — Hartron Pvt. Ltd

Jun 2025 – Sep 2025

- Built backend systems with focus on REST API architecture
- Integrated Redis caching improving performance by 35%
- Used AWS S3 for scalable file storage and handling

Education

B.Tech — Maharaja Agrasen Institute of Technology
CGPA: 8.7

2024 – 2028

Achievements

- Solved 200+ DSA problems on LeetCode
- Built 3+ scalable production-level applications
- Participated in hackathons and collaborative development projects
